

What are those black things? Why are your greens covered? When will you take the covers off? These questions were by far the most popular conversation starters this winter. Their main job is to shelter the greens from harsh winter winds and prevent desiccation of the grass. Now that the recent temperatures have given us a taste of spring the covers have definitely proved their worth and given us a head start for 2011.

The biggest change for 2011 actually happened last July when we hired Dean Farlow as our new superintendent. Anyone who has played here within the last few months can certainly notice his attention to detail and the excellent course conditions that come with it. We have received more compliments on the course the last 6 months than the last 5 years combined so if you haven't made your way here lately come check us out.

Very few rate changes have taken place since last year. All rates are clearly posted online at our website: [hollyridgegolfinks.com](http://hollyridgegolfinks.com). Holly Ridge Golf Association memberships are currently due and will remain at \$25 for 2011. An entry form will be attached to this newsletter.

In the past we have always held our Holly Ridge Charity Classic in April. This year it will be on July 30<sup>th</sup> and 31<sup>st</sup>. Go ahead and mark your calendars and be on the lookout for a newsletter with all the details coming soon. July will be here before we know it!

We look forward to seeing everyone on the tee soon and as always, thank you for playing Holly Ridge Golf Links!
